

Primaris Job Description

Job Title: Quality Improvement Specialist - QPP

Department: Clinical Operations - Government

Reports To: Director

FLSA Status: Exempt

Approved By: Carlene Johnson

Approved Date: 07/12/2016

Summary

This position is responsible for communication and Quality Improvement (QI) consultation to support contracted work directed toward health care providers and key stakeholders. Uses evidence based QI interventions driving multiple and varied deliverables for Primaris, including increasing quality reporting, increasing care delivery process improvements, plus other deliverables under current scope of work.

This position will consult and contribute to recruitment of providers to improve quality indicators in the Quality Payment Program, reportable measures in other areas such as cardiac, diabetes, immunizations, screening, medication safety, and antibiotic stewardship to improve care among Medicare population.

This position will work with a local team to facilitate and assist providers with education, technical assistance, project management and advocacy to enhance the healthcare delivery and business operations of clients, leading to improved outcomes and savings to the healthcare system.

This position will use evidence-based quality interventions recommended by the regional QIN-QIO team or research interventions when gaps are identified. This position will use special training as assigned for focused practice or outpatient transformation activities with providers which may include improved Quality Payment Program scores, Alternative Payment options, and monitoring and tracking of improvement activities.

Essential Duties and Responsibilities include the following. Other duties may be assigned.

Implement promotion efforts directed to healthcare providers and other audiences designed to achieve improvement in identified healthcare indicator(s) or to provide information about QIO services.

- Utilize professional clinical and quality improvement experience and expertise to guide the project team.
- Maintain required documentation. Participate in Team meetings as assigned.
- Assist assigned provider groups to set up quality improvement workflow and processes to support quality reporting.

- Assess interventions to support provider readiness for QI using assessment tools developed by the QIN-QIO or subject expert sources.
- Secure data from each provider and use evidence-based QI to improve results.
- Participate in sharing and learning related to ACO initiatives and other similar activities.
- Contribute to the evaluation and continuous improvement in the communication strategies and tactics. Document results, feedback, and lessons learned.
- Facilitate collaboration between providers and secondary targets for multiple project areas, including diabetes, depression screening and follow-up, cardiac health, support and coordination of community healthcare workers and other project areas as assigned.
- Actively participate in team meetings, contributing to presentations, training materials, interventions and communication strategies.
- Prepare project documentation as outlined by the QIN-QIO or other involved contractor and in accordance to established timelines.
- Develop collateral materials and communication resources that will assist staff to implement their educational interventions and plans; coordinating QI information with QIN and/or regional team to provide current and pertinent QI information to providers quarterly at a minimum.
- Maintain a working knowledge of other healthcare-related initiatives, cooperate and encourage collaboration to share resources, tools and materials whenever possible.
- Complete all Primaris reporting in a timely fashion including timesheets, travel vouchers, expense reports, and deliverable reports as assigned.
